

ANGEL RAFAEL VALDEZ FERNANDEZ

(956) 832-7795 | angelrafaelvaldezfer@gmail.com

EDUCATION

Texas A&M University – Kingsville

Expected Graduation: December 2029

Bachelor of Science in Electrical Engineering; Minor in Computer Science

HONORS

Academic Excellence Award, Texas A&M University – Kingsville

Fall 2025 – Present

Gabriella Hernandez '99 and Edgar Garcia Scholarship

Fall 2026 – Present

EXPERIENCE

Texas A&M University – Kingsville — Student Success Tutor | Kingsville, TX

Spring 2025 – Present

- Provided one-on-one and group tutoring sessions in College Algebra, Trigonometry, Digital Logic Design, and American History to undergraduate students.
- Developed personalized study strategies to support students with diverse learning styles and academic needs.
- Assisted students in improving critical thinking, problem-solving, and analytical writing skills.
- Collaborated with faculty and campus tutoring services to align support with course objectives.

Henderson Engineering — Electrical Engineering Intern | Kansas City, MO

Summer 2026

- Designed and modeled power and lighting systems in Autodesk Revit for sports and entertainment facilities, including new NFL and UCL stadiums.
- Executed photometric analyses using AGi32 for the Los Angeles Convention Center Expansion, optimizing lighting performance and code compliance.
- Performed electrical load calculations and addressed quality control comments using Bluebeam Revu for multiple high-profile, confidential sports venue projects.

Ethos Engineering — Electrical Engineering Intern | Harlingen, TX

Summer 2025 – Winter 2026

- Utilized Revit and AutoCAD software to design detailed electrical, fire alarm, intercom, intrusion, and lighting system layouts for commercial facilities across South Texas.
- Conducted on-site visits to verify existing infrastructure and ensure the accuracy of system plans.
- Reviewed and revised outdated schematics to bring them up to current code and design standards.
- Collaborated with engineers and project managers to integrate field data into final design documentation.

Pete's Electric — Apprentice Electrician | Harlingen, TX

Summer 2024

- Worked at various schools throughout South Texas installing air conditioning units.
- Installed lighting, wiring, control systems, as well as conduit pipes for electrical wires and cables.
- Detected electrical issues using troubleshooting techniques and testing devices.
- Read blueprints and technical diagrams and interpreted them based on the requests of project managers and engineers.

ACTIVITIES

Texas A&M University – Kingsville:

E-Sports | Chess Team, Member

Fall 2024 – Present

Institute of Electrical and Electronics Engineers | Member

Fall 2024 – Present

Tennis Club | Member

Fall 2024 – Present

Sigma Chi – Zeta Pi | Historian & Philanthropy Chair

Spring 2025 – Present

Student Government Association | Sophomore Class Senator

Spring 2026 – Present

Architectural Engineering Institute | Vice President

Spring 2026 – Present

SKILLS, CERTIFICATIONS & INTERESTS

Technical: Revit, AutoCAD, AGi32, Inventor, Lighting Design, Electrical Systems, Fire Alarm Systems, Intercom Systems, Intrusion Systems, Bluebeam Revu

Certifications: Autodesk Inventor, NCCER Core, NCCER Electrical I, Sigma Chi True North Leadership

Interests: Music Critiquing, DJing, Chess, Beach Trips
